## Professional Summary

Finance & Accounting Intern with a background in chemistry, process automation, and EMEA market research. Experienced in streamlining workflows with AI tools and driving process automation.

## Employment

**CoreWeave** - Finance & Accounting Intern *Jun - Nov 26*

- Analysed competitor positioning across key EMEA industry events and built an executive presentation with strategic recommendations for future company events.
- Automated month-end processes by building custom AI programmes and spreadsheets, cutting manual reporting time.
- Centralised EMEA tax and audit deadlines into a single tracker and calendar, received positive feedback from the Finance Controllership.
- Earned direct praise from external auditors for product and work ethic during audit.
- Supported full month-end and quarter-end close cycles alongside senior finance staff.
- Exposure to SOX Compliance and familiarity with Netsuite and Floqast.

**Calverley Cricket Club** - Bartender *Jun 25 - Present*

- Handled customer service, bar operations, and point-of-sale transactions at a local cricket ground.

**Eurofins Drug Discovery** - Junior Med Chem Scientist *Sep 23 - 24*

- Synthesised target compound variations for breast cancer research and ran multi-step purifications for biological assays.
- Purified chemical products via HPLC and completed structural analysis using LCMS, NMR, and IR spectroscopy.

**DH Landscapes** - Landscaper *Jun - Aug 23*

- Negotiated pricing, managed job scheduling, and collected payments for client landscaping projects.

## Education

**Nottingham Trent University** - Chemistry Bsc (Hons) 2:1 *2024 - 2026*

- Completed modules on nanotechnology, green and pharmaceutical chemistry.
- Final year dissertation: The Synthesis of 1,6-Enones for Carbonyl Olefin Metathesis.

**University of Nottingham** - Chemistry UG Certificate *2021 - 2024*

- Year in industry at Eurofins Drug Discovery in Ongar, Essex.
- Completed modules on medicinal, sustainable and analytical chemistry along with core modules.
- Specifically excelled in lab modules as I love hands-on work and being able to see the result of my efforts.

**Benton Park Secondary School** *2014 - 2021*

- A-Levels: Chemistry (B), Biology (A), Maths (B). GCSEs: Passed 10 (Grades 5-8).

## Work Experience

**Day Lewis Chemist** *Jun - Aug 21*

- Assisted with prescription dispensing, over-the-counter sales, and pharmaceutical supply chain tasks.

**Covance Laboratories** *Jun - Jul 19*

- Shadowed clinical trial research and operated specialist analytical spectrometers.

---

## RAF Air Cadets *2015 – 2021*

- Led 75 cadets as Cadet Warrant Officer, managing training schedules, discipline, and squadron operations.
- Completed a 4-day self-sufficient expedition across the German Alps.
- Led squadron marching band in wing and regional competitions.
